During the European Meeting of Solidarity with East-Timor has been decided the publication of an international bulletin with the main articles and documents on East-Timor.

Lisbon is responsable for this publication. So all the other Committees present on this meeting were supposed to send regularly to us all the relevant material published on their countries - what so far did not happen - however, we think this would be most convenient as here we are not very well informed about international press.

Here is the first number! Since April the most important items are as follows:

a) Resignation of the Apostolic Bishop Mr Martinho Lopes - his departure from Dili and arrival at Lisbon

b) Australian Labour Party policy concerning East-Timor. Fretilin visits Australia - postponing of dates

c) Socialist International Meeting and Congress of Socialist Women in Montechoro/Portugal

d) Maubere refugees arrive at Lisbon

e) International petition to be sent to General Secretary of UN

and mainly,

f) Cease-fire in East-Timor and preliminary talks between Fretilin and invader forces.

We also include the summary of different international publications sent from solidarity committees and received in Lisbon, as well as, the most recent news published by portuguese press.

Due to difficulties we have concerning international press this bulletin is very defficient so, we ask you, once again, to send us all important news about East-Timor in your countries so that we could acchieve the decision taken during the European Meeting held in Lisbon.
